Google Tag Manager	_dc_gtm_UA-########-#	1 minute	We use Google Tag Manager. Google Tag Manager does not itself collect any personally identifiable information. Tag Manager makes it easier for us to incorporate and manage our tags. Tags are small elements of code that serve to measure traffic and user behavior, record the effects of online advertising and social channels, establish remarketing and focus on target groups, and test and optimize websites, among other things. If you have deactivated, this will be taken into account by Google Tag Manager. For more information about, see: https://www.google.com/analytics/tag-manager/use-policy/				X									
Hotjar	_hjid	11 months	We use Hotjar in order to better understand our users' needs and to optimize this service and experience. Hotjar is a technology service that helps us better understand our users' experience (e.g. how much time they spend on which pages, which links they choose to click, what users do and don't like, etc.) and this enables us to build and maintain our service with user feedback. Hotjar uses cookies and other technologies to collect data on our users' behavior and their devices. This includes a device's IP address (processed during your session and stored in a de-identified form), device screen size, device type (unique device identifiers), browser information, geographic location (country only), and the preferred language used to display our website. Hotjar stores this information on our behalf in a pseudonymized user profile. Hotjar is contractually forbidden to sell any data collected on our behalf.	X		X	X					X				
	_hjIncludedInSample	1 year														
iMoneza	iMonezaLAU	1 Year	We use Wallit (formerly iMoneza) as a subscription management solution to sell help us sell subscription content. For information on the Wallit privacy practices, please visit: https://www.wallit.io/privacy-policy/													X
